## USP

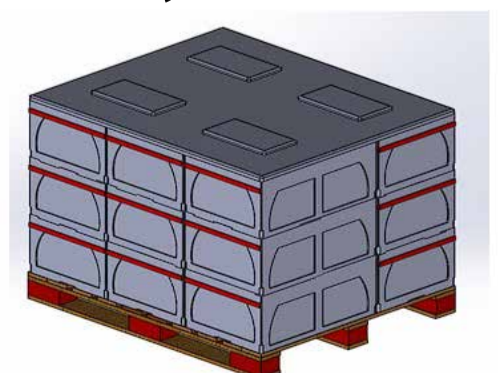

LEAP Crate is the most economical and efficient way to transport your products.

- Suitable for line side storage.
- Reduced environmental impact. Fully recyclable materials result in minimal wastage in the Supply Chain.
- Fitted with industry-standard label holders to easily identify container Crate contents.
- The compatible product design allows to mix previous generation Crate. We can load 600x400 (mm) and 400x300 (mm) Crates together.
- When empty, efficient stacking capabilities of the LEAP Crate results in reduce storage space.
- Best suited for JIT (Just in Time delivery).
- Offers enhanced protection against damage and dust.
