LEAP SUSTAINABILITY

At LEAP we have developed a culture where every action is evaluated by its impact on environment.

GO GREEN WITH LEAP SUSTAINABLE POOLING SOLUTIONS

- Reusable, “corrugated/carton-less” moving systems are environmentally friendly
- Reduces landfill waste
- Recyclable

Our Sustainability strategy is to replace use of one-way packaging by providing pooling solutions through reusable packaging to customers

“REDUCE, REUSE AND RECYCLE”

ISSUES OF USING CARTON BOX

- Product damage while in-transit
- Capex expenditure
- Cutting down of trees for production
- Scrapping expense of Carton box after use
- Assembling of Carton box takes time

BENEFITS OF USING WINDOW FLC

- Reusable material usage leads to no wastage and scrapping expense
- Tracking of material with advanced RFID technology
- Sturdy, durable and protects products from damage, dust, etc.
- Less space for empty storage and transfer
- Ergonomic operations
