

WINDOW FLC

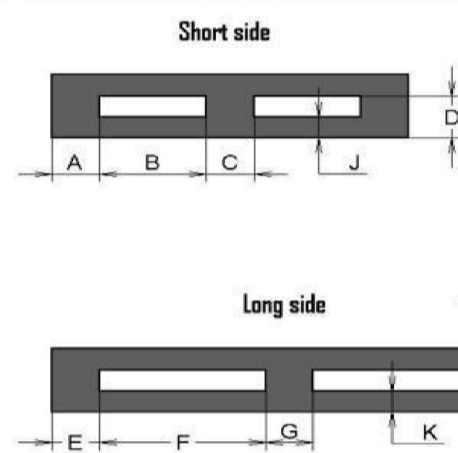

LEAP India introduces Window FLC, a durable, light-weight, hinged-flap foldable large container. The Window FLC is tough and reusable, enabling the customers to save energy, reduce their environmental impact and increase profitability. The future-proof design of the WFLC makes it suitable for industries as diverse as Automotive, Agriculture, Retail, Food Processing and Industrial Manufacturing. The WFLC is custom-tailored for customers who need manufacturing packaging with a minimal quantity of materials and maximised service life.

FEATURES

- Lower weight and more durable.
- Larger capacity in comparison with other FLC containers.
- Easy to fold and unfold.
- Hinged flap on long and short sides which allows easy access to the container content.
- User does not need to lean in to reach parts lying on the bottom of the container stacking up to 5 pcs.
- Capacity of one container is up to 750 kg.
- Height after folding 295mm.

DIMENSIONS

A	140
B	285
C	150
D	120
E	200
F	325
G	150
J	0
K	20

TECH SPECS

Measures (mm)

External Length at Top	1200
External Width at Top	1000
External Height	975
Internal Length at Top	1140
Internal Width at Top	940
Usable Height	790
Height Stacking Rim	30
Stacking Height	945
Total Height Folded	325

Weight & Volume

Net Weight (kg)	51.0
Usable Volume (l)	847

Performances

Unit Load Capacity	750
Max Static Stacking Load	3200
Max Dynamic Stacking Load	1600
Max Static Stacking High Folded	16
Max Dynamic Stacking High Folded	10

Miscellaneous

Customer Exclusive	No
Drawing No	SZ-F 6288
Material	PP
Temperature Range	-10°C to +50°C
Label Holder	One long and One short side
Type Base	Solid base with drainage holes
Type Longsides	Solid
Type Shortsides	Solid
Food Approved?	N
Doors Longside	1 Door
Doors Shortside	1 Door
Lid Available	Yes 9347

Hand Grips Longside	Yes
Hand Grips Shortside	Yes
Drain Holes	Yes
Skids/feet/wheels	2 Runners & 2 Feet

Packaging

Units/package	8
Units/pallet	8
Pallet Volume (m3)	3.000
Pallet length (mm)	1200
Pallet Width (mm)	1000
Pallet Height (mm)	2390

USP

- Strongest plastic FLC which supports a 750 kg unit load, unrivalled in the industry. WFLC facilitates a 3200 kg stacking load for a 4-on-1 stacking when full which optimises transport and storage.
- WFLC provides the most efficient reverse logistics solution. With its lowest folded height, Window FLC stacks up to 8 in a standard truck and up to 10 high in a mega truck, offering a 30% space saving over all competing FLCs in India.
- WFLC offers 10% more volume than most FLCs due to its welded double-wall design.
- Smooth surfaces of the WFLC allows easy cleaning and fast drying. Dust cover, which is optional, increases protection and prevents contamination.
- The ergonomic and versatile nature of the WFLC is highlighted by its non-sequential folding and easy-to-use locking devices. This means with just one operator, you can erect and fold the WFLC, saving labour costs and handling time.
